

GDPR COMPLIANCE SERVICES

THE ISSUES — STATISTICS RELATED TO GDPR

83% of organizations expect their GDPR compliance spending to top six figures.

(IAPP)

Failure to comply with the GDPR can involve fines of up to 20 million or 4% of worldwide annual turnover.

(EUGDPR)

The General Data Protection Regulation (GDPR) applies to all companies processing and holding personal data of data subjects residing in the EU, regardless of the company's location. Because GDPR is the most important change in international data privacy regulation in 20 years, we want to make sure your organization is prepared.

SECURE YOUR DATA, BE COMPLIANT

24/7 Monitoring and Support

**GDPR Experts,
Qualified Security Assessors**

Many U.S. organizations have questions about how GDPR impacts them, especially pertaining to the types of personal data they have, how the GDPR defines personal data, and the new protection laws against that personal data. LBMC Information Security's compliance and audit experts can help your organization with GDPR compliance in a number of ways.

SERVICES — WHY LBMC?

FULL SUITE OF GDPR SERVICES

GDPR APPLICABILITY
ANALYSIS

- Help organizations in understanding if GDPR applies
- Obtain an understanding of your environment, your legitimate purpose in retaining personal data, and how you interact with EU citizens.
- Review of current data flows and interviews with key stakeholders
- Assist in determining if you are a data controller or a data processor

GDPR
READINESS

- Readiness assessment takes a deeper dive into how your organization is classified under GDPR
- Assist in determining if you are a data controller or a data processor
- Determine which legal basis for processing personal data best fits your company
- Assist in understanding the current privacy maturity and data flows across an organization to determine organizational impact of GDPR
- Develop strategic compliance approach
- Build trust through safeguarding customers' personal data
- Develop a list of GDPR compliance action items that should be taken

DATA ANALYSIS &
CLASSIFICATION

- Define and establish a data classification and labeling system
- Review any existing data classification policies to ensure the protection of personal data as defined by GDPR to map out an ongoing compliance strategy
- Conduct an inventory of sensitive data types
- Perform an analysis of an organization's information and inventory of data
- Help in implementing appropriate controls to ensure GDPR compliance

OUR EXPERIENCE — TESTED AND TRUSTED
